Workshop content

This workshop will focus on:

- Low, mid and high-tech options for clients who meet CAT Level 1 criteria.
- The day focusses on using SETT to inform decision making, identifying important features and functions of specific AAC tools.
- We will also work through case examples to combine SETT and tool knowledge.

Cost

Cost \$100 per person (including GST).

Please note this is free to therapists enrolled in paid supervision through TalkLink.

Morning tea is provided.

Please bring your lunch.
