★ Remember, you don't need to find every word you are saying on the communication system, just focus on the **key** words. These are the most important words. You can still speak a 'full' sentence out loud, while pointing to symbols for the key words.

So you might say 'I like it', but just point to/press the 'like' symbol, until you feel confident to join 2 or 3 symbols together. ★

PATHWAYS FOR DIFFERENT SYSTEMS

Different communication systems use different 'pathways' to find the words.

Below are some of the pathways for commonly used communication systems.
