✓ **DONE - I've Sent the Email**

Select the service provider to send the email from and attach your documents. Once completed come back to this screen to select Done – I’ve sent the email. This will then send the email to us, and we can verify your application. Once we have approved it, you will get an email to confirm.

Once you have been confirmed under the Impact Program, log back into the ElevenLabs website. On the home screen, select Clone your Voice on the right-hand side.

Create or clone a voice

Select Professional Voice Clone

(Please note, if you have already started doing a voice recording, you will need to edit the previously started voice. To do this, close out of the pop up on the screen, and you will be on the “My Voices” page. You will see a voice in the list. Select the 3 dots to the right of the screen and select Edit Voice. This will allow you to continue to record).

My Voices

Choose from the options on the screen. Select Record Yourself if you are wanting to record live speech, and at the bottom of the next pop up, select the script you would like to read. Conversational is the most popular option to select. Select start recording and read what is shown on the screen in front of you. If you are unable to read the whole script at once, select stop recording to come back to it later.
