# Coronavirus (COVID-19)

The Coronavirus is a virus that can make you sick with a cough, sore throat, temperature or feeling short of breath.

Coronavirus can pass to people very easily. It is important that I stay home and stay healthy.

I can help stay healthy by washing my hands and keeping clean. If i nee to cough, I can cough into my elbow.

School will be closed while everyone stays at home. I will do school work and play at home.

I will be safe and happy with my family at home.

Once the Coronavirus is gone, I will be able to go back to school with my friends.
